Efipsans IPv6 Tutorial– 25/06/2009		
09:00 – 10:30	**6Deploy**	
	Introduction to IPv6 – Part A	IPv6 Introduction, IPv6 Protocol IPv6 Addressing IPv6 Associated Protocols
Coffee break 10:30-11:00		
11:00 – 12:00	***IPv6 Network Management***	IPv6 Management Tools MIBs, IPv6 flows
	IPv6 QoS	IPv6 QoS with Classes of Services IPv6 Flow Label usage
12:00 – 13:00	***IPv6 security***	IPv6 Threat Analysis, IPv6 security issues, practical IPv6 security issues and firewalling IPv6
	Routing	Differences between IPv4 and IPv6 routing protocols
Lunch break 13:00-14:00		
14:00 – 15:30	***Coexistence with IPv4***	IPv6 coexistence with IPv4
	IPv6 & Sensors	IPv6 in Sensor Networks
	Software Development	How-to Guide for Developers
Coffee break 15:30-16:00		
16:00 – 17:30	***Operations and Case Studies***	IPv6 DNS IPv6 Deployment Scenarios
	IPv6 and 3G networks	IPv6 address allocation using GPRS IP Multimedia Subsystem (IMS) IPv6 MS implementation issues

The training is organised in the framework of the 6DEPLOY project http://www.6deploy.org
